Unlike books, cinema directs and controls our attention and leaves less to the imagination. But that's why we love it: it *grabs us*. And even if it isn't always as deep as books, it can still teach us plenty. Here is a list of movies and series we liked, along with their directors/creators and the year/s in which they first screened.

1. [8½](#) (Federico Fellini, 1963)
